

Station service support robot (ekibo)

Resolve users' problems in public spaces

Concept

Natural dialogue

- Speech recognition that can also be used in public spaces (With booth for acoustic noise reduction)
- Eliminate user's anxiety, scenario where you can solve problems

I want to go to Makuhari-messe!

Take the south exit, and turn right!

Hospitality Healing

Moving Jizo

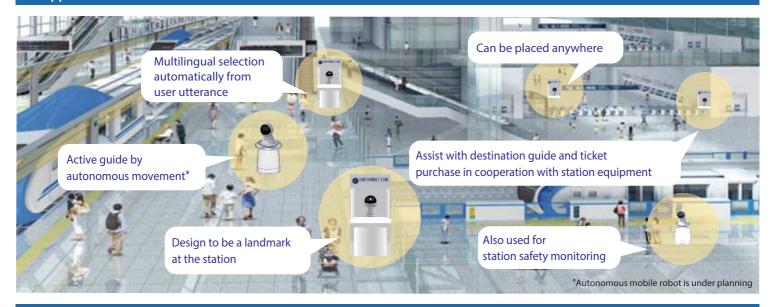

- Size and design to give presence and sense of relief
- A simple mechanism combining safety and robustness

Landmark Cuteness Japanese style

To the station where everyone can smile more

Application

Specification

Item		Description
External dimensions		ϕ 370mm × H535mm
Amount		Less than 10 kg
Power Supply		AC 100V Less than 30W
Environmental condition	Operating temperature	-5°C∼+45°C
	Waterproof	Simple waterproof (Protection from sudden water splash)
Interface		Wireless, Wired LAN, Printer, External monitor
Contents		External monitor
Corresponding languages		Japanese, English, and Chinese (Expansion of available languages will be scheduled.)
